DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

3. Claims 64-79 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kara et al.(6,233,568) in view of Thiel (6,699,258).

4. With respect to Claim 64, 68-79: Kara discloses the use of a shipping management computer system (see abstract) for:

- a. Receiving a set of package specifications (Figure 8, Box 802);
- b. Determining multiple shipping rates (first and second) for a first carrier (Figure 8, Boxes 807 and 808) ;
- c. Determining multiple shipping rates (third and fourth) for a second carrier (Figure 8, Boxes 807 and 808) ;

Art Unit: 3629

- d. Receiving a request from a user to ship a package using one of the services by one of the carriers (See Figure 8, Column 5, lines 56-67) ;
 - e. Facilitating the delivery of the package (Column 6, lines 1-6).
5. Kara disclose the use of calculating and displaying rates for specific services, for multiple carriers, but fails to disclose the simultaneous display of the rates for each carrier for each service. Thiel discloses the use of a system for calculating rates for multiple carriers for multiple services (see abstract), and discloses a simultaneous display of rates for each carrier, that includes rates for different services (Column 11, lines 1-13). Thiel discloses displaying rates for the preferred carrier, but also discloses displaying the rates for second and third choices as well (Column 11, lines 46-54). It would have been obvious to one having ordinary skill in the art at the time the invention was made to modify Nicholls, Fisher and Kara, to simultaneously display the rates of each carrier for each service, in order to allow the customer to come to his/her own conclusion and choice of carriers. (See column 11).
6. With respect to Claims 65 and 66: See Figure 8, Box 807.
7. With respect to Claim 67: See Barnett, Figure 9.

Response to Arguments

8. Applicant's arguments with respect to claims 64-79 have been considered but are moot in view of the new ground(s) of rejection.
